Features

The Combat Boot MK2 GTX Women's features a waterproof and breathable GORE-TEX® lining for dependable protection in wet conditions while maintaining comfort throughout the day. Its durable leather upper is built to withstand demanding use, and the supportive midsole helps reduce fatigue during extended wear. PORON® ankle protection enhances stability and impact absorption, while the Vibram® outsole provides excellent traction on a wide range of surfaces. Engineered specifically for women, it combines durability, comfort, and operational performance.
