LOWA Z-8N GTX C (Disc)

SKU: 310681_0999

Description

The LOWA Z-8N GTX C WIDE is built for maximum stability and support in demanding situations. Its upper uses high-quality, durable suede leather, creating a robust yet lightweight boot ideal for challenging terrain and marches with moderately heavy loads. A waterproof, breathable GORE-TEX membrane ensures reliable protection from external moisture, even during high-sweat activity. Despite its strength, the boot remains highly functional and comfortable over long periods. This combination of durability, support, and all-weather performance makes it a versatile choice for mission-focused use.

Features

The boots feature a 175/210 mm upper height for strong coverage and support. A nylon hard stabilizer enhances control during intense outdoor activity, while the sturdy stability frame improves overall stability. The polyurethane sole uses varying hardness levels to reduce stress on joints and provide excellent cushioning. A mission-optimized rubber sole offers reliable traction with heat-and cold-insulating properties. This combination ensures dependable performance and comfort during extended, demanding missions.
