Features

The Combat Boot MK2 GTX Men's is designed for military and tactical professionals who require dependable performance in demanding environments. Featuring a waterproof and breathable GORE-TEX® lining, it provides all-weather protection and lasting comfort. The durable leather construction withstands heavy use, while the supportive midsole helps reduce fatigue during extended wear. PORON® ankle protection enhances stability and impact resistance, and the high-traction Vibram® outsole delivers reliable grip on various surfaces. Its rugged design ensures comfort, durability, and confidence in the field.
