DANNER Acadia 8in Black Women's

SKU: 21210W

Description

The Acadia 8-inch Black women's boots feature a plain-toe design for a lighter feel and greater flexibility during break-in. Built without insulation, they are ideal for mild to warm conditions while maintaining all-day comfort. The Vibram Kletterlift outsole delivers superior shock absorption and reliable traction on both wet and dry surfaces. Finished with a secure lace-up closure, these 8-inch boots weigh 49 oz per pair, offering dependable support and durability.

Traction	Oil and slip resistant

Features

The Acadia 8-inch black men's boots deliver dependable protection with a 100% waterproof, breathable GORE-TEX liner that keeps water out while allowing moisture to escape. The Vibram 148 Kletterlift outsole provides lasting comfort, shock absorption, and reliable traction on wet or dry surfaces. Its oil- and slip-resistant, low-lug design is ideal for urban environments. A lightweight fiberglass shank supports the arch, reduces foot fatigue, maintains the boot's shape, and won't trigger metal detectors. The Airthotic footbed features a non-compressing raised arch and perforations to promote airflow and all-day comfort.
