LOWA Zephyr GTX HI TF (Disc)

SKU: 310532_0999

Description

This lightweight modern military boot is built for rapid movement and fitted with a waterproof, breathable GORE-TEX lining. It is based on the proven Zephyr Mid Monowrap design, with the primary difference being its increased height. The boot performs well in light to moderate terrain and supports fast, agile use.
Its construction remains comfortable during extended. Thanks to closed eyelets, it is also suitable for airborne operations using modern rig parachutes.

Features

The boot’s upper combines high-quality split leather and Cordura fabric for durability and breathability.
Its midsoles enhance comfort while the overall construction delivers strong stability. The design remains waterproof and breathable. These properties make the boots suitable even for harsh desert environments. Monowrap technology further increases breathability and structural support.
