LOWA Zicon GTX Mid Women's

SKU: 321884C29_ 0999

Description

The LOWA ZICON GTX MID is a versatile and robust full-grain leather boot designed for police and security professionals. Its raised shaft provides strong ankle support, while the double-injected PU midsole delivers long-lasting shock absorption for extended wear. The ESD-compliant construction protects against electrostatic discharge, making it suitable for environments with sensitive electrical equipment. Two-zone lacing and compatibility with orthopaedic insoles allow a more personalized, optimized fit. A waterproof, breathable GORE-TEX Professional membrane maintains a comfortable internal climate.

Features

The boots feature a 125/160 mm upper height that delivers balanced protection and support. Rayflect technology uses sunlight-reflecting pigments to keep the leather and interior cooler during hot outdoor work, especially in summer. A fully metal-free design ensures the footwear is non-conductive and suitable for security-sensitive environments like airports. Lightweight DynaPU foam provides durable cushioning, rebound, and long-lasting comfort. The high-traction outsole offers excellent slip resistance on wet, oily, and uneven surfaces, ensuring dependable stability in demanding conditions.
