LOWA Z-6N GTX (Disc)

SKU: 310682_0999

Description

The LOWA Z-6N GTX C is a lightweight yet highly functional boot designed for a wide range of demanding missions. Its waterproof, breathable GORE-TEX lining maintains an optimal foot climate, even during high-intensity activity. The boot performs well on challenging terrain and during marches with medium-heavy loads. A durable PU sole with varying rigidity levels provides strong cushioning and stability. This certified model delivers comfort, protection, and reliability for both tactical use and extended wear.

Features

The boots feature a 125/160 mm upper height for solid support and protection. A nylon hard stabilizer enhances control during intense outdoor activity, while the sturdy stability frame improves overall stability. The Lowa rubber sole provides varied lug patterns for dependable off-trail traction. Durable buffalo leather and a tough closed-lacing system increase resilience, and the boot is resistant to oil, petrol, and contact heat. The Z-6N GTX C is also antistatic for added safety in demanding environments.
