9” Advanced Fit Duty Sock

SKU: 160008

Description

The 9in Advanced Fit Duty Sock is made from 73% nylon, 12% polyester, 10% cotton, and 5% Lycra for exceptional durability and comfort. Its performance-driven fabric provides effective moisture control and mild structural compression for all-day support. Reinforced construction enhances abrasion resistance, helping prevent wear and tearing in high-impact areas such as the heel and toe. The socks are available in one size, which accommodate all footwear sizes.

Specifications

Color	Black
Small/medium	One Size.
Large/X-Large	One Size.
Material	73% Nylon, 12% Polyester, 10% Cotton, 5% Lycra.
Toes	N/A
Vented panels	Vented mesh panel at top of foot.

Features

The 9in Advanced Fit Duty Sock is designed for superior comfort and support during extended wear. Padding throughout the sock provides enhanced cushioning, while the close-fitting arch delivers a secure, supportive fit. Compression zones help improve blood flow and promote muscle stabilization for lasting performance. A vented mesh panel across the top of the foot increases breathability, keeping feet cooler in warm conditions.
