LOWA Renegade MK2 N GTX HI PR

SKU: 310911_0493

Description

The LOWA Renegade II N GTX HI TF uses a waterproof, breathable GORE-TEX lining that keeps moisture out and maintains comfort year-round. Its stable sole design pairs with the heat-and cold-insulating LOWA Patrol outsole to deliver strong traction and support. The optimized sole profile enhances performance on varied terrain. Whether used on challenging ground or for daily wear, the boot remains versatile and dependable. This makes the Renegade II N GTX HI TF a reliable choice for both demanding missions and everyday use.

Features

The boots feature a 180/210 mm upper height for strong coverage and support. A hard stabilizer with a nylon joint element enhances control during intense outdoor activity. The support frame provides a higher wrap for stability on off-trail and backcountry terrain. The upper uses durable full-grain or nubuck leather with a Cordura-lined shaft for added comfort and resilience. The sole is non-slip and resistant to oil, petrol, and contact heat for dependable performance in harsh environments.
