LOWA Zicon GTX HI Men's

SKU: 311881C29_0999

Description

The LOWA ZICON GTX HI is a durable, full-grain leather boot designed for police and security work. Its high shaft supports the ankles, while the double-injected PU midsole provides long-lasting shock absorption and comfort. The ESD-compliant design protects against electrostatic discharge, making it suitable for environments with sensitive electrical equipment. Two-zone lacing and compatibility with orthopedic insoles allow a more personalized fit.

Upper	Full grain leather 1.6 - 1.8mm.
Lacing	Closed hooks and eyelets.
Lining	GTX PROFESSIONAL.
Sole	LOWA COVERT.
Size	7.5 to 15 M
Color	Black

Features

The boots feature a 125/160 mm upper height for balanced support and protection. Rayflect technology uses sunlight-reflecting pigments to keep the leather, and the interior, cooler during hot outdoor work.
A high-traction sole provides optimal slip resistance on wet, oily, or uneven terrain. The metal-free construction ensures non-conductive, undetectable performance, while closed hooks reduce snagging risks. Lightweight DynaPU foam delivers durable cushioning, rebound, and support for long hours on your feet.
