# DANNER Lookout EMS/CSA Side-Zip 8in

SKU: 23826

## Description

The Lookout EMS/CSA Side-Zip 8-inch boots feature a non-insulated design with a non-metallic composite safety toe that provides ASTM F2413-certified impact and compression protection without conducting heat or cold or triggering metal detectors. The oil- and slip-resistant outsole delivers dependable traction on demanding surfaces. A semi-locking side zipper allows for quick entry and exits while staying securely closed during wear. Standing 8 inches tall and weighing 58 oz per pair, these boots combine protection, comfort, and mobility for professional use.

## Features

These boots feature a 100% waterproof Danner Dry membrane that keeps feet dry while allowing moisture to escape for lasting comfort. Body Fluid-Borne Pathogen Resistant construction meets ASTM F1671 standards, while puncture-resistant and EH-rated protection meets ASTM F2413 requirements to guard against sharp objects and electrical hazards in dry conditions. A lightweight nylon shank reduces foot fatigue and protects the foot on rough terrain. The DCS footbed provides arch support, shock absorption, breathable air vents, and a quick-drying mesh cover. The Danner Lookout outsole delivers slip-resistant traction and dependable grip in cold-weather conditions.
