DANNER Lookout 8in 800G Black

SKU: 23827

Description

The Lookout 8-inch 800G Black boots feature 800G Thinsulate Ultra insulation, delivering lightweight warmth for cold, snowy, and wet conditions. A plain-toe design provides greater flexibility and a lighter feel during break-in for enhanced comfort. The oil- and slip-resistant outsole offers dependable traction on challenging surfaces. A traditional lace-up closure ensures a secure, adjustable fit, while the 8-inch height provides added ankle support. Weighing 66 oz per pair, these boots are built for warmth, stability, and all-day performance.

Features

These boots feature a 100% waterproof Danner Dry membrane that keeps feet dry by blocking water while allowing moisture to escape. Body Fluid-Borne Pathogen Resistant construction meets ASTM F1671 standards, providing reliable protection for EMS professionals. The lightweight nylon shank reduces foot fatigue and protects the foot on rough terrain for lasting comfort. A DCS footbed delivers superior arch support, excellent shock absorption, breathable air vents, and a quick-drying mesh cover. The Danner Lookout outsole, built with FrostTrekker rubber and a dynamic lug pattern, offers outstanding slip-resistant traction and control in cold-weather conditions.
